EDUCATION

Indiana University Bloomington – Bloomington, IN.

May 2027

Luddy School of Informatics, Computing, and Engineering

Major: *Data Science* | Minor: *Statistics* | Specialization: *Data Systems*

Coursework: *Systems Engineering, Statistical Inference, Data Structures*

TECHNICAL EXPERIENCE

Third Horizon Strategies – Chicago, IL

May 2026 – Aug 2026

Data Engineer

- Contributing to the firm's core data consulting operations by supporting the data team in various engineering tasks including supporting ODIN AI development and updating our hospital MRF pipeline to CMS 3.0.

DevOps Engineer Intern

- Assisted the Chief Data Officer and DevOps in building a proprietary, client-facing AI assistant framework that enables natural language exploration of data insights using specialized context framing for LLMs.

Fizyr AI, B.V. – Delft, The Netherlands (Remote)

Feb 2024 – Aug 2025

Research & Analysis Intern

- Assessed and reported on competitive risk in the supply chain automation technology sector.
- Supported company executives in product marketing at material handling industry conferences.

RESEARCH EXPERIENCE

Luddy AI for Food Computing Lab – Bloomington, IN

Jan 2026 – Present

Undergraduate Research Assistant

- Developing a preliminary dataset and experimental methodology for continuous egocentric video-based dietary assessment using smart-glasses image stream, video, and 3D-point-cloud volume estimation.
- Working with Dr. Jiangpeng He as a Meta Project Aria academic partner and one of the few undergraduates worldwide conducting research with Meta Aria Gen 1 and Gen 2 hardware and ARK software.

Luddy School of Informatics – Bloomington, IN

Aug 2025 – Dec 2026

Independent Undergraduate Researcher

- Executed an independent deep learning benchmark for multi-label Big-9 allergen classification in food images, comparing ResNet and MLA Transformer architectures using AUROC, mAP, validation loss, and train-validation gap with a cross-entropy-based multi-label loss.

LEADERSHIP & PROJECTS

Data Science Club at IU – Bloomington, IN

May 2026 – Present

Director of Outreach

- Coordinate outreach, partnerships, and student engagement initiatives for the Data Science Club, helping expand member involvement and connect DSC with campus and external organizations

Data Analytics & Research Club – Bloomington, IN

Feb 2025 – Present

President & Executive Committee Chair

- Lead internal operations, external partnerships, and project coordination for a student organization delivering *pro bono* software and data services to local and national nonprofits and student organizations.

Alvestor – Evanston, IL (Remote)

May 2024 – Present

Founder & President

- Built and launched Alvestor Edge, an AI-driven SaaS platform for automated financial analysis.
